

# Scienceworks Experiences

**Make your event at Scienceworks one to remember with a range of premium extras and experiences.**

**SCIENCEWORKS**

### Private Planetarium Show

Take your guests on a journey to the stars under the soaring Melbourne Planetarium Dome. Be guided to the far reaches of space, explore what's in the sky tonight or accompany Tycho on his journey to Mars with your choice of a private 30–45 minute Planetarium screening.

### Planetarium Presentations

The Planetarium's full dome projection system blankets the dome with a single seamless, high resolution video image, resulting in spectacular colour and movement like never before. From presentation to product launch, gain the attention of your audience in a truly unique way by delivering your PowerPoint or DVD presentation on the dome.

### Private Lightning Room Show

Delight your guests with the ultimate in hair-raising experiences. A private Lightning Room show features spectacular demonstrations and high voltage equipment – including the crowd favourite giant Tesla Coil, capable of generating two million volts of electricity to produce three metre lightning bolts. No other science centre or museum in the world utilises such high voltage generation!

### Private Collection Store Tours

Join an experienced guide on a behind the scenes tour of the Scienceworks Collection Store. Discover some of the rare and unique objects collected by Museums Victoria over the last 150 years and hear their stories. The museum's collection comprises over 17 million objects, far more than we can display, and over 40,000 of them are stored at Scienceworks.

### Scienceworks Gift Bags

Take home a piece of the museum with a value-packed gift bag of crowd favourites from the Scienceworks Shop.

### Scienceworks Shop Gift Vouchers

Simplify gifting and allow your guests to select their own souvenirs with a gift voucher for the Scienceworks Shop.

### Pre-Booked Car Parking

Save on the daily rate when you pre-book car parking with your event.
